Your task

Deadline: 13.6.2021

Points: 15

Material requirement: Laptop or Computer, Browser, and?

Topic description

You have worked on many of our tasks in the last weeks and months. Now it's time to get creative. Invent a task that you enjoy and do it yourself.

We hope you have fun with this and the following tasks!

Your PRIA-ECER Team

PS: As always, if you have questions or problems, check the forum to see if it has already been answered or post your question yourself. If you don't want everyone to read it, send us a mail to ecer@pria.at. In any case we will try to help you as soon as possible.

Task description

- **Develop a task**

Think about a topic description, task description and evaluation criteria for your task according to our template. Write it down so carefully that other people can solve the task without further assistance. Also describe the materials you will need and, if necessary, make sketches.

The more creative and elaborate your task is, the more points you can receive. As a guideline, you can use past tasks from us to evaluate your task.

Upload your task afterwards.

- **Execute your task**

Now get to work and complete your task.

Upload a video and your code afterwards.

Your task

Deadline: 13.6.2021

Points: 15

Material requirement: Laptop or Computer, Browser, and?

Evaluation criteria

- Creativity and difficulty of your task
- Description of the task
- Video of a successful test
- Your code
- Jury evaluation: The jury evaluates the quality and creativity of the delivery.
